### SCHNEIDER ELECTRIC & SQUARE D

#### SED

Kits available for 800A to 4000A breakers  
Power and voltage information available with the VDM

#### CM

Merlin Gerin 1250A – 3200A Low Voltage Breaker  
Modbus communications standard with the AC-PRO-II  
CTs are bus-mounted

#### PE

AC-PRO-II is panel or door mounted (not shown)  
CTs are bus-mounted  
Power and voltage information available with the VDM

#### NX

AC-PRO-II is panel or door mounted (not shown)  
CTs are bus-mounted  
Power and voltage information available with the VDM

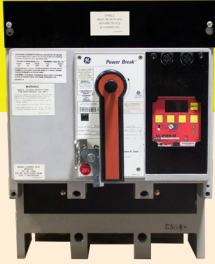

#### Masterpact M

Modbus communications, power and voltage information standard with the AC-PRO-MP-II  
Direct replacement kit available for all frame size

REV 8.12.19

## GENERAL ELECTRIC

### Powerbreak

Modbus communications standard with the AC-PRO-II  
Power and voltage information available with the VDM  
Kits available for all frame sizes

### Powerbreak II

Modbus communications standard with the AC-PRO-II  
Direct replacement kit available for all frame sizes

### THK

Modbus communications standard with the AC-PRO-II  
Power and voltage information available with the VDM

## EATON / CUTLER HAMMER / WESTINGHOUSE

### SPCB

Kits available for 600A to 2000A  
Modbus communications standard with the AC-PRO-II  
Power and voltage information available with the VDM

### SPB

Kits for 800A to 4000A breakers  
Modbus communications standard with the AC-PRO-II  
Power and voltage information available with the VDM

### Magnum DS Family

Kits for 800A to 6000A breakers  
Modbus communications standard with the AC-PRO-II  
Power and voltage information available with the VDM

## SIEMENS

### SB

Kits available for 400A to 5000A breakers  
Modbus communications standard with the AC-PRO-II  
Power and voltage information available with the VDM

### WL

Kits available for 800A to 3000A breakers  
Modbus communications standard with the AC-PRO-II  
Power and voltage information available with the VDM
